FULLY AUTOMATIC DENTURE INJECTION SYSTEM-UDP1501

Heats all type of Cartridges Small, Medium, Large & Extra Large, for 25mm diameter cartridges (DR. STEVE, CFS, VALPLAST, TCS, CARTRIDGES ALL SIZES) can operate in it. Automatically does everything with the press of a button. Maintain temperature automatically for a set time, Automatic releasing injection programe Forward and reverse. Machine can be use Automatically & Manually, Injects cartridge automatically once the process is on time, upto 60 injections in a day.

UDP-1501

- Less Man Power
- Highly Denture Accuracy
- Soundless Programe
- Fully Automatic System
- Hassle Free Work
- Latest Technology
- Digital Micro Controller Based Ic Programes
- Highly Accurate Temperature $\pm 10^{\circ}\text{C}$
- Latest Technology
- Low Power Consumption
- Five Flasking in 1Hr.
- Upto 60 injections in day

Unique Denture Injection System

One of the fast operating heating furnace which gives you high quality performance, ready to use within 3-4 min from cold start. Heats all type of Cartridges Small, Medium, Large & Extra Large, for 25mm diameter cartridges (DR. STEVE, CFS, VALPLAST, TCS, CARTRIDGES ALL SIZES) can operate in it. It is capable of injecting a wide range of variety of flexible denture material appliances.

UDP-999

FEATURES

- Ready to use within 3-4 min from cold start.
- Digital controller ensures highly accurate temperatures.
- Temperature 0 to 350°C
- Digital Micro Controller Based IC programes
- Highly accurate temperature $\pm 10^{\circ}\text{C}$
- Latest technology
- Low power consumption
- Ready to use signal with buzzer
- Time saving

DR. STEVE FLEXIBLE DENTURE MATERIAL

Gives you high quality unbreakable strength with perfect flexibility. This material gives you bounce free denture, Flexibility, Easy Processing, High Quality, Durability, Low Plaque adhesion as well as a unique aesthetic are characteristics of the high-performance. The extremely high flexibility of the material reduces the risk of fracturing to a minimum, which results in very high quality. Nature friendly, Easy to set, perfect positioning, Natural shade, Non Discoloration, Stable placement for long lasting.

UDP-861

- Bubble free Denture Solution
- Non Bouncing Denture
- Unbreakable Strength
- Perfect Flexibility
- Nature Friendly
- Easy To Set
- Mirror Finishing
- Perfect Positioning
- Natural Shade
- Non Discoloration
- Stable Placement for Long Lasting

SAND BLASTER

Unique Sand Blaster UDP-0189

Unique Sand Blaster is specially designed and customized on our customers requirements. This Device has straight forwarding sandblasting system suitable for all decreasing / blasting operations. Nozzle Tips of the hardest material ensure long usage and maximum precision. High capacity and transparent system it ensures smoothness and any type of sand can be used from 25 to 250 micron. Transparent glass helps you to perform better and create pollution free atmosphere.

VACUUM MIXER

UNIQUE VACUUM MIXER UDP-0172

Unique Vacuum Mixer is ideal for mixing plaster, investment material and alginates bubble free and homogeneously. Our digital features helps you to perform better Digital Timer, digital display, automatic coupling system and vacuum is adjustable. It incorporates a high-quality durable vacuum pump and you just need an electrical socket to get started. The vacuum mixer's most significant benefit is its ease of operation, You just simply hold the mixing jarr to the unit and the vacuum pump starts automatically. You can adjust mixing timer manually.

MODEL TRIMMER

UNIQUE WET/DRY MODEL TRIMMER UDP-0201

Unique Wet/Dry Model Trimmer is specially designed for heavy duty work, gives you double ball bearings continuous job, loaded with solenoid valve self adjusting water flow. Model Trimmer can be adjust medium-low speed in order to ensure a smooth surface treatment and to reduce the risk for the abrasive disc to gum.

The disc is made of reinforced Carborundum with dual coating and Bakelite bond. It can be replaced with a diamond disc for more cutting power and long life usage.

SPINDLE POLISHER/GRINDER

SPINDLE POLISHER/GRINDER UDP-0231

Unique Spindle Polisher/Grinder gives you high Speeds for versatile operation.

- Fully-Automatic Spindle
- Two high-intensity lights provide excellent illumination of work area
- Tinted safety glass for glare elimination and protection

Unique high speed SPINDLE POLISHER/GRINDER Alloy Grinder, RPM 2800 heavy duty, Equipped with double ball bearing single speed with high speed. Exclusively designed for heavy duty work.

Bench Top Polishing Systems

Bench Top Polishing Systems UDP-0259

Multi-Functional Bench Top Polishing System Complete bench top polishing system manufactured with a heavy gauge, powder coated cabinet, two suction motors and cartridge filters, two High glow lights, two dust collection trays, two insert pans.

Each suction motor delivers a powerful 2 to 5 CFM, and collects 0.5 microns of dust, easily access to reusable, replaceable pleated rear cartridge filter. Replaceable, adjustable clear acrylic shield protects user from debris, and can be set at different heights to accommodate user sitting down or standing up. Baked-on durable powder coating, arm rests for comfort and sustainable operation. Easy operation for dry grinding, or polishing with pumice using the pumice pans. Powerful suction system prevents user with safer healthier environment.

VACUUM FORMING MACHINE

VACUUM FORMING MACHINE UDP-0131

- Easy-to-use system
- All aluminum construction to eliminate rust
- Uses 5" x 5" resin sheets
- Available in 110 volt and 220 volt
- Symmetrical engineered heating element for uniform heat distribution
- Single chambered motor
- Lightweight, rust-free frame

Muffle Furnace

Muffle Furnace UDP-1200

Muffle Furnace uses Resistance wire as heating elements, which can be used up to 1200°C.

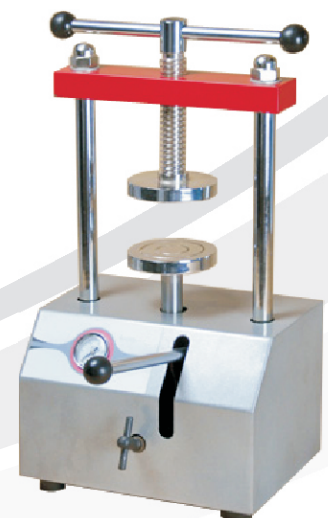

These compact muffle furnaces are perfect for many applications in laboratory. It is an ideal electric lab furnace for materials annealing and sintering in your research.

Hydraulic Press

Dental Hydraulic Press with pressure gauge UDP-1989

UNIQUE hydraulic press is safe and designed under our customers requirements. Highly accurate pressure gauge, specially designed for heavy duty operations.

Unique Dental Vibrator

UNIQUE Dental Vibrator UDP-0263

The device vibrator is available in two sizes for 4-6 casting rings. The product advantages as follows simple operation, operational reliability; strong design for a long service life; can be used for the investment material and plaster; the 2 infinitely variable vibration frequencies, removable and easily cleanable rubber tray.

Unique Surveyor

UNIQUE SURVEYOR UDP-0372

Unique Surveyor is the conventional model. Though low cost, it still ensures precision and high quality laboratory work. Unique surveyor with heavy base Best use for plain clasp work divergent teeth & tooth sets for all prostheses cast individually or from models.

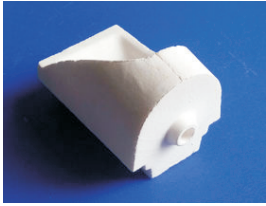

Centrifugal Casting Machine

Centrifugal Casting Machine- UDP0212

The Unique Centrifugal Casting Machine is a well made, precision casting machine that has been the industry standard for decades. It comes complete with accessories to cast all , and features are very easy and safe winding of the arm, heavy duty spring, and heavy duty construction.

Unique Centrifugal Casting Machine Releasing lever for safety ,stainless steel cradles for holding the ring with one fixed balance weight Lever for Gold and Cobalt work. New Model with releasing Lever with safety and breaking device.
